

Sprint 2 Report

Slug Meter

Limax Pueri

November 7, 2023

Actions to Stop Doing

- Stop allowing daily scrum to go over 15 min. Meetings become less effective and team members become less attentive
- Ensure each member discusses the necessary information at each meeting, doesn't take too long diving into small details
- Have someone missing at each meeting or have someone show up late

Actions to Start Doing

- Start meeting together in person more often to work on code together
- Hold each other accountable for work that needs to be done
- Being more assertive about what needs to get done by a certain time

Actions to Keep Doing

- Actively communicating on Discord with updates regarding the project and class
- Working to get tasks done promptly

Work Completed/Not Completed

Completed:

- Learn express
- Create a bare-bones website
- Integrated the back-end
- Be able to query the database via the website
- Create a webpage for scan-ins that updates the database

Not Completed:

- Meeting in person with Athletics & Recreations management
- Host Website
- Create a QR code that is linked to the website

Work Completion Rate

1/2 User stories were fully completed.

5/8 Tasks were completed.

~32/43 total task hours were completed
