

Sprint 3 Report

Slug Meter

Limax Pueri

November 21, 2023

Actions to Stop Doing

- Ensure each member discusses the necessary information at each meeting, doesn't take too long diving into small details
- Have someone missing at each meeting or have someone show up late
- Being careful of overlapping efforts

Actions to Start Doing

- Start meeting together in person more often to work on code together
- Ensure that we hold weekly meetings at the same times
- Hold each other accountable for work that needs to be done
- Being more assertive about what needs to get done by a certain time

Actions to Keep Doing

- Actively communicating on Discord with updates regarding the project and class
- Working to get tasks done promptly
- Asking each other for help when necessary
- Being open to picking up work

Work Completed/Not Completed

Completed:

- Learn chart.js
- Design a bar chart to represent daily gym data
- Decide on the best ML model
- Populate DB with sample/found data
- Train ML
- Learn/implement website CSS
- Design general
- Integrate chart.js into front-end

Not Completed:

- Design a heat map to represent monthly data
- Allow DB/website to access ML data

Work Completion Rate

1/3 User stories were fully completed.

9/11 Tasks were completed.

~60/69 total task hours were completed
